Cougar New Tech Applicant Assessment

Fall 2016

Applicant Name: _____

Grade applying for: _____

Current School: _____

To the student: Completing and submitting this form is one of the requirements for completing an application to attend Cougar Entrepreneurial Academy. There is a section to be completed by your current English teacher, one by your current Math teacher, and another by a parent or guardian. The open enrollment deadline is December 4, 2015 at 4:00 PM. We will continue to take applications after the 4th but those applicants will not be included in the lottery. Please make sure this form is completely filled out prior to submitting your application. **Attach complete transcripts as well.**

To the teachers and parents: Cougar Entrepreneurial Academy is different in that students learn using project-based curriculum, working in groups, and managing their time effectively. To succeed here, students must be self-motivated and, to some degree, assertive. For some students, the transition to our school may be easy and natural; and for others, it may be very difficult. We also have several additional graduation requirements. Keeping this in mind, please complete the survey below so we may gain some insight into what is necessary for the success of our newest students. Your answers will not determine acceptance. This is strictly for our information. Thank you!
